General Description

Above medium size, medium strong, very well pigmented and coloured dog of very good type and good balance of angulation. Good head and expression, medium eye colour. Normal wither, firm back, croup is good length but just slightly steep. Good fore angulation where the upper arm is set just slightly steep, very good hindquarter angulation. Very good hock joints. Steps correct in front and rear. During movement shows a very good ground covering gait whilst maintaining a good topline. The hindquarter drive could be slightly more effective. Still a relatively immature dog that should develop further. Good temperament. Gunsure.
